Product description

Polymer flexible engine mounts

Application/Limitation

The mounts are approved for use for mounting of propulsion and auxiliary engines.

Size of mounts to be chosen according to the maker's data sheets for the approved series of mounts.

Type Approval documentation

Data, test results and drawings received in booklets with letters from Poly Flex dated 03-02-17 and 03-06-09.

Tests carried out

Tests carried out in April 2003 and May 2003.

Marking of product

The product to be marked with manufacturer's name or trademark and type number identification.

Certificate retention survey

For retention of the Type Approval, DNV shall perform a survey every second year and before expiry date of this certificate to verify that the conditions of the type approval are complied with.

Other conditions

No product certificate required

Installation, maintenance and inspection of the mounts to be done according to the makers instructions.

Engine vibration calculations to be submitted for approval according to DNV Rules Pt.4, Ch.3. Sec.1 A 600.
