Mr Brian Gaqen
Poly Flex Marine Products
26 Tubbs St., PO Box 3153
Clontarf Q 4019

Dear Brian,

In the past 3-4 years we have sold and installed your Poly Flex couplings, and mounts, on three occasions. and now after much use are very pleased with them. I have proudly demonstrated the effectiveness of these installations to others.

Our Company Tailormaid Marine Industries P. L. have remanufacturing contacts in the northern hemisphere, One in particular builds in excess of 300 cruising yachts per year ranging 34' to 66'. Is it in your interest for us to bring to their attention with demonstrations of your Poly Flex?, the aim being for them to consider incorporation in their production line?, at least optional to begin.

Our company is not interested in manufacture, and installations anymore, but we are interested in finding direct customers for you at a confirmed agreed ongoing 7% commission.

Our 55 Bounty is presently at Breakwater Marina Townsville.

We plan to have Bounty at Bundaberg Port after 30 September.

Yours faithfully,

Bernard S Taylor
