Serving the whole of PNG.

P.O. BOX 810, PORT MORESBY  
PAPUA NEW GUINEA

1 November 1990

Attention Brian Gagen

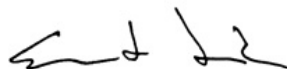

Dear Sir

This is just to let you know how pleased  
we are with your marine mounts.

We have a client with a gardner. 1 L 3  
engine in his Dive boat (Talita). This  
gave continual trouble with engine mounts  
as the single cylinder vibrated so much rubber  
marine mounts broke continually direct  
bolting to the frame of the boat was shaking  
the boat to pieces.

Since fitting 4 off Poly Flex p58 M mounts  
18 months ago we have had no further trouble.

Yours faithfully

E LOHBERGER  
Managing Director
